Blank Page

Choose music paper and write down ideas by hand, or arrange drum and percussion parts in the rhythm editor.

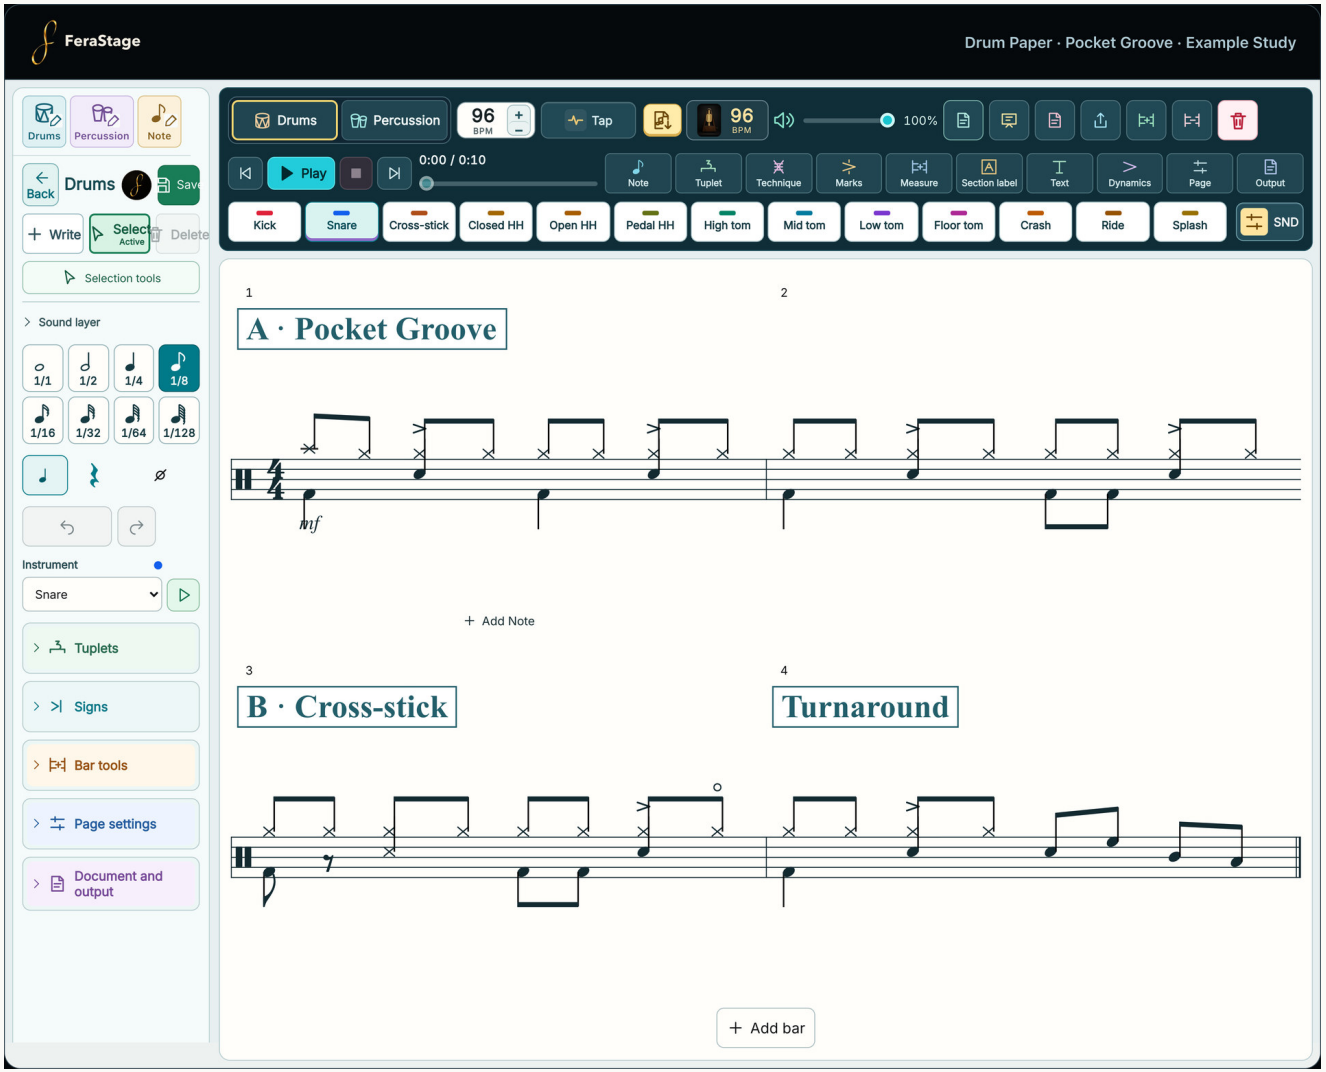
Get started in three steps

1. Open a workspace with Music Paper, Drum Paper or Blank Page.
2. Use drawing tools on paper, or note, rest, instrument and bar tools in the drum editor.
3. Save your work and export it as a PDF or an editable FeraStage file, depending on what you need.

Usage notes

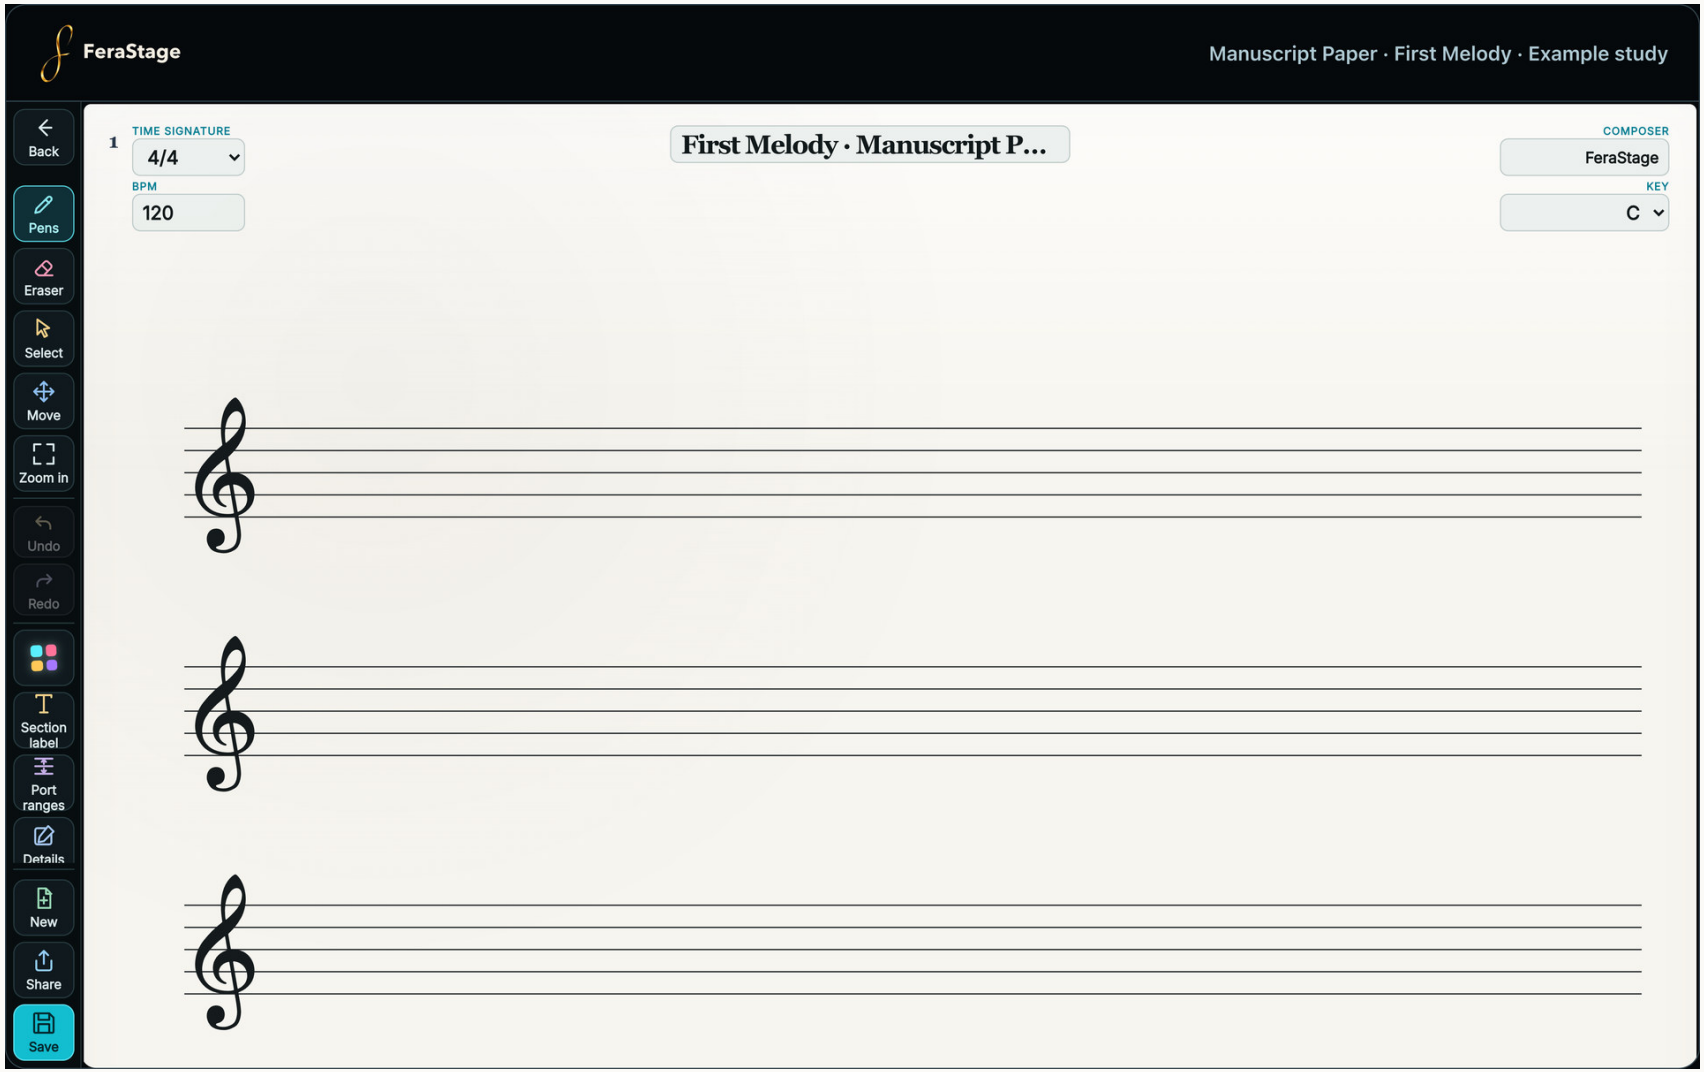
- Freehand drawings and structured drum notation with playback are different ways of working.
- The Lyrics card opens Vocal Stage.
- PDFs are for viewing and printing. An editable FeraStage file is a separate export option.

Drum Paper · Pocket Groove



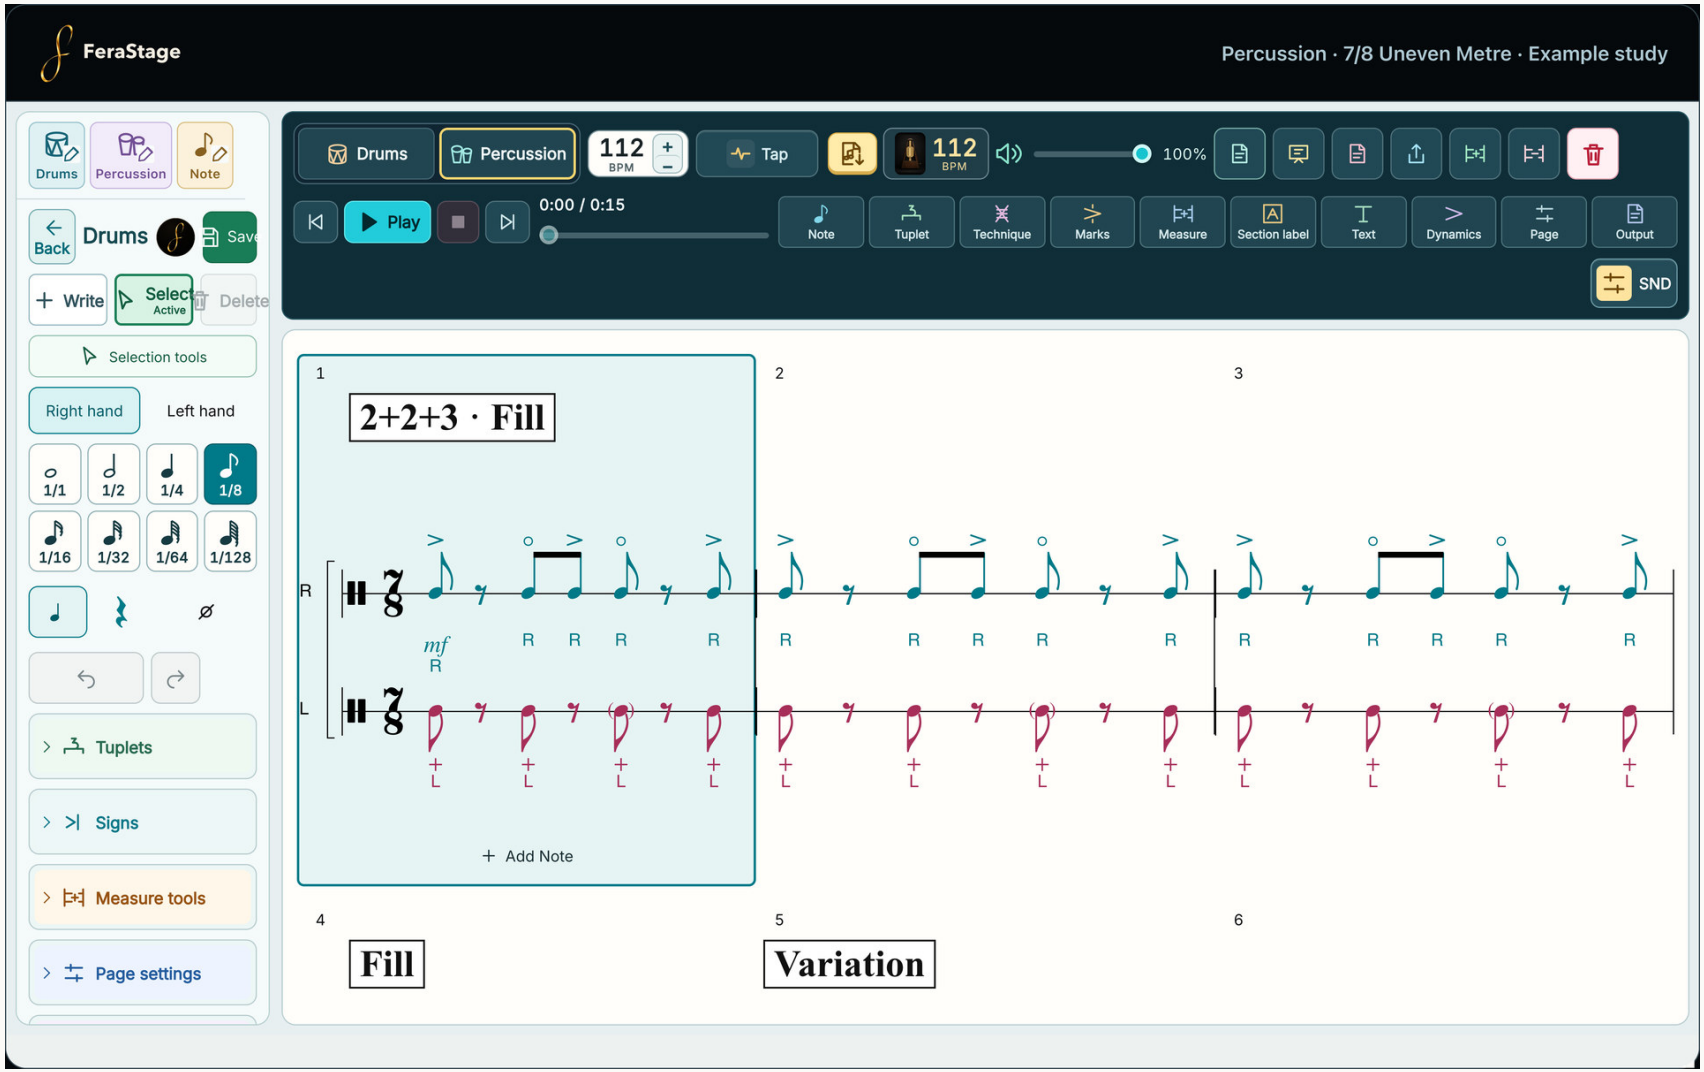
An original four-bar Pocket Groove at 96 BPM in 4/4, with the main pattern, cross-stick and a short tom fill.

Music Paper · Handwritten notation



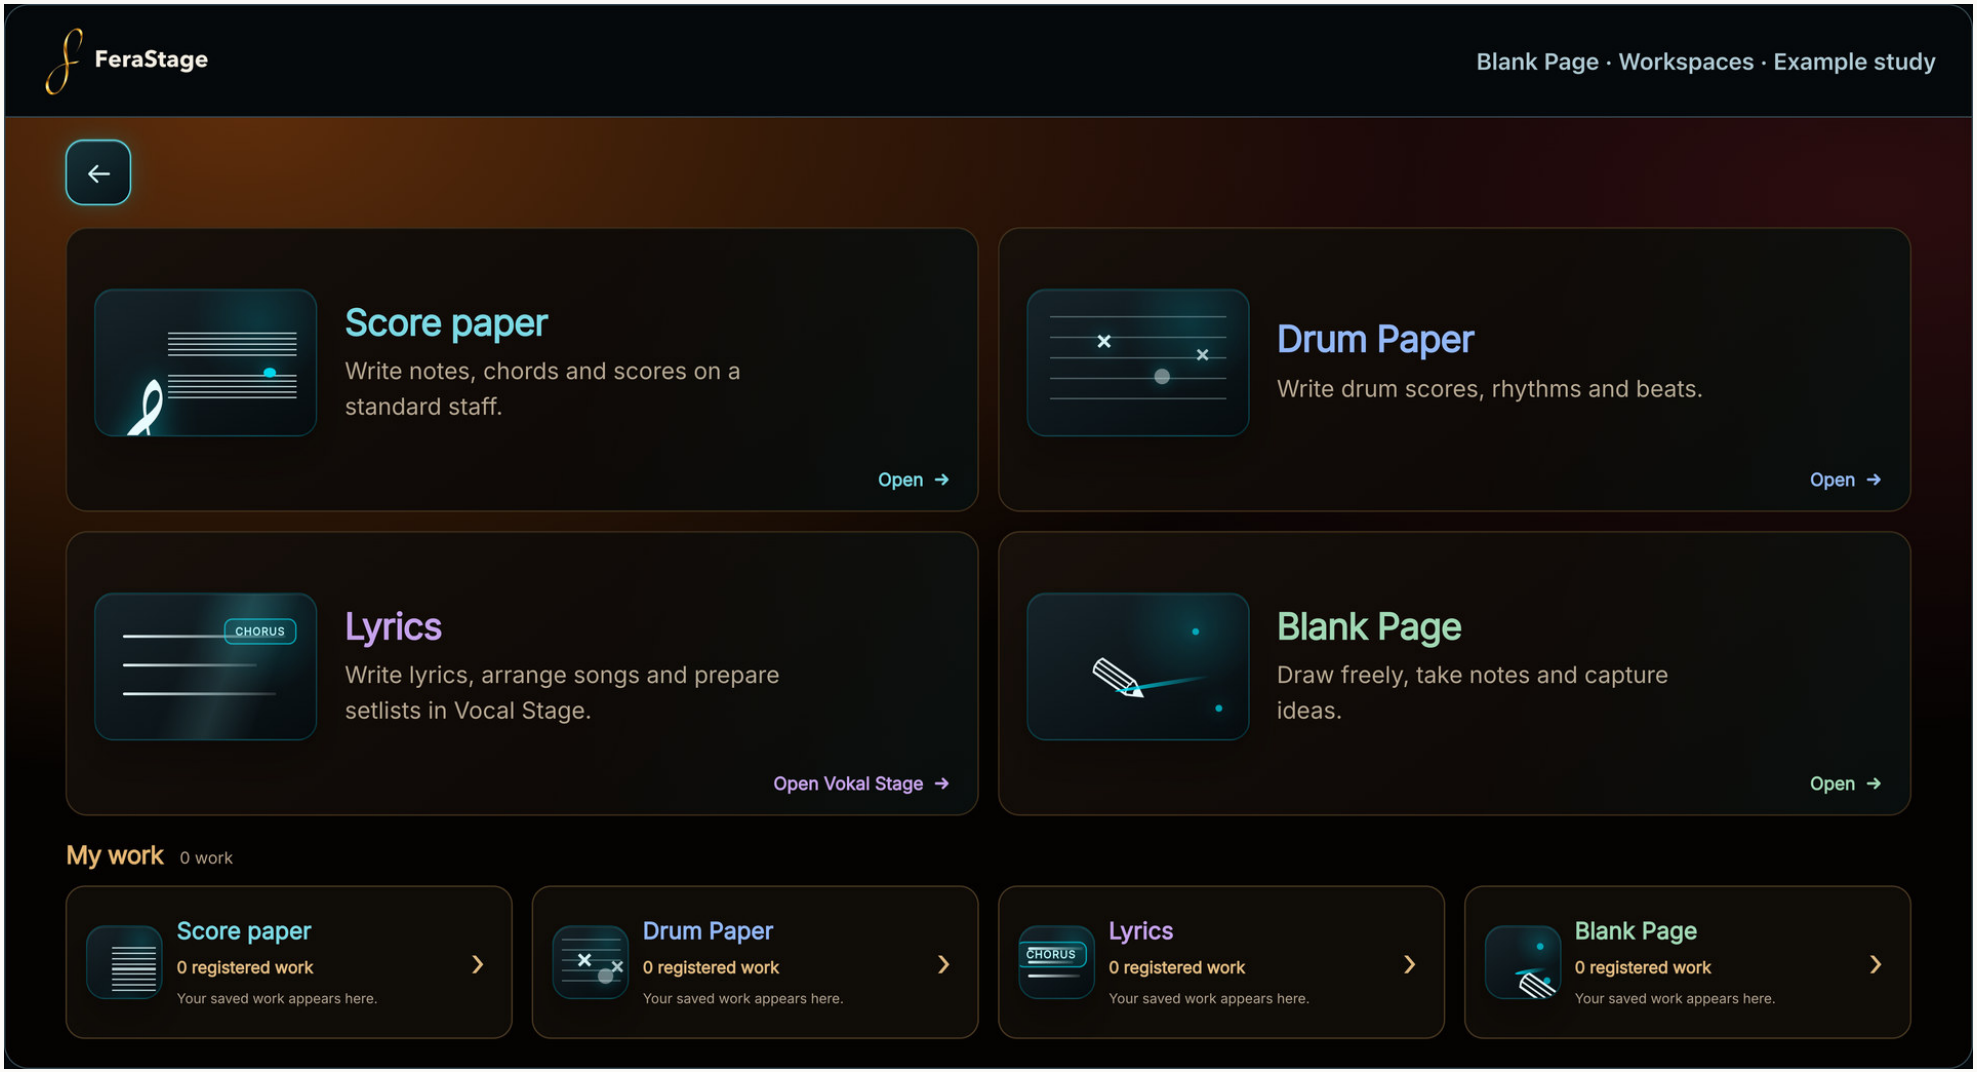
Combine freehand notation, text and practice notes on the staff using the actual drawing tools.

Percussion · Uneven-meter study



Explore percussion instruments, rests, subdivisions and bar progression in the built-in example.

Blank Page · Choose a workspace



Choose the right starting workspace from Music Paper, Drum Paper and blank page options.

Practice ideas

1. **First melody**
   Write an original melodic idea by hand on treble-clef music paper.

2. **Bass line**
   Sketch a bass part and fingering notes on bass-clef paper.

3. **Piano sketch**
   Work on right-hand and left-hand ideas on the same page using the Grand Staff layout.

4. **Lead sheet draft**
   Sketch a song using the spaces for chords, melody and short lyrics.

5. **Guitar and TAB**
   Mark melodic ideas, strings and positions by hand on Staff + TAB paper.

Practice ideas

6. **Sing together**

   Write vocal entrances and rehearsal notes on separate staves in the Duet or SATB Choir template.

7. **4/4 drum groove**

   Enter kick, snare and hi-hat parts in the drum editor, then choose Listen to check the rhythm.

8. **Uneven meter**

   Prepare a percussion study in 7/8 or grouped 2+2+3/8 and set the tempo.

9. **Technical drum study**

   Add detail to a drum study with tuplets, flams, sticking and dynamics.

10. **Handwritten rehearsal notes**

    In Pen Studio, add freehand markings to drum, percussion or music paper, then export a PDF.
