PRACTICE WORKSHEET 01 / 10

Smart song discovery

In Find Song and Add Chords, enter the artist and song title. If several recordings are offered, choose the one you want.

> **PRACTICE EXAMPLE**
>
> Search practice: your verified artist/song details
>
> Sample study name for recording notes: First Light
>
> If there is no result, repeat with another verified recording

PRACTICE IN FERASTAGE

1. Open Create Lyrics > Add > Find Song and Add Chords.
2. Enter your verified artist and song title, then choose Search Song.
3. Select the correct recording if available. If no result appears, check the query and write your observation.

WHAT TO LOOK FOR

Use the correct query and clearly distinguish a selected recording from a no-results outcome.
