Choose your starting note from Reference Keys

PRACTICE IN FERASTAGE

1. Open the first song in Vocal Stage and select the text size and Slow prompter speed.
2. Hear your starting note with Reference Keys, then turn the tone off and return to reading.
3. Start the prompter, stop it when needed and try moving to the next song.

WHAT TO LOOK FOR

The prompter scrolls at the selected speed. The reference key gives a starting note and does not evaluate your singing.
